### **DETAILED ACTION**

1. This office action is in response to the application filed on August 24, 2001.

#### ***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1 to 22, drawn to Semiconductor device, classified in class 257, subclass 334.
  - II. Claims 23 and 24, drawn to Semiconductor device fabrication, classified in class 438, subclass 203.

The inventions are distinct, each from the other because of the following reasons:

Invention I and II are related as product made and process of making product. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the process as claimed can be used to make other and materially different product. For example the process as claimed can be used to make a product wherein the transistor has only a control gate.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art and because of their recognized divergent subject matter, and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 2822

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. 1.48(b) if one or more of the currently named inventors are no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by

***Conclusion***

3. **THIS ACTION IS MADE NON-FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THIRTY DAYS from the mailing date of this action.
